Activate Your Mobile Phone (Updated!)

If you provided a mobile phone number during registration, look out for a text message from ADP. Reply with the code or follow the instructions in the text message to activate your mobile number. In the United States, the message will come from sender “90206”; the sender will vary in other countries.

Note: In some countries, this texting method to activate your mobile phone is not available, so your activation process will differ. Follow the instructions on the confirmation page and in the activation email you receive from ADP to complete the activation.
Need Help?Forgot Your Password?

Once registered, you can use your user ID and password to log in and access your ADP service. If you forget your password, you can use the “Forgot your password?” link on your ADP service web site to reset your password.

During this process, you will be required to verify that you are the rightful owner of the account to protect your personal information.

Complete the following steps.

1. Enter your user ID to identify yourself.

2. Select the reset method.
   - Request temporary password to be sent as a text message to your activated mobile phone number.
   - Request temporary password to be sent via email to your activated email address.
   - Request to answer security questions and reset the password on the screen.

   **Note:** If you have not yet activated your email address and/or your mobile phone numbers, the email and text message options will not be available to you. Use the option to reset your password on the screen.
Note: Depending on the reset method you select, the next set of steps will differ.
Using your activated mobile phone number or your email address

3. Enter the answer to your security question(s) to continue.
